

Product Description

When none of our fully wireless iriComm 4.0 solutions match your requirements, iriBelt is the next best thing you can get to being fully wireless. iriBelt connects to an iriInsert speaker/microphone combo, which is designed to fit in a Gecko MKII marine safety helmet. For other helmet types, please contact us to hear about the possibilities. iriBelt MKIII has two PTT buttons enabling remote activation of up to two external radios. Improved operational range with normal/long-range capabilities.

Key Features:

- Fully waterproof, IP67
- Voice prompts
- Connects to the iriInsert speaker/microphone combo
- Connects wirelessly to an iriConnect
- Connects wirelessly to another iriBelt or any iriComm unit in twin-com mode
- >18 hours operation
