

PRO-SP590

RUGGED RSM WITH NEXUS FOR PELTOR

A robust ProEquip RSM that are suitable for heavy duty users in fire brigades, MC drivers etc.

The dual microphone with DSP noise suppression makes this a good choice in noisy environments. The robust construction with the large front PTT makes it easy to use with gloves. The NEXUS jack on top is suitable for robust headsets.

FEATURES & BENEFITS

- Heavy duty Robust RSM.
- Double PTT.
- PTT on the side.
- A large PTT on the front with a protection ring to avoid accidental press on the PTT.
- Alarm button.
- IP67 water protection.
- Double microphones with DSP noise suppression technology.
- 3½ mm jack with dust cap for earpiece (listen only).
- NEXUS jack on the top for headset - Peltor configuration.
- Robust clip with ring hanger.
- Robust cable with braided shield and foil screen for better RF immunity.
- Cable length ~42cm.
- Robust connector with metal hook for secure and reliable use.

SPECIFICATION

Speaker	Ø36mm 8Ω 1W 91±3dB @1KHz (0.3m 1W)
Microphone	40±2dB@1KHz 0dB=1V/Pa
Protection grade	IP67 (earphone cover properly closed)
PTT key life	Front and Side PTT ≥300,000 cycle
Operation temp.	-20~50°C (-4~120°F)
Flame retardant	UL94-V0

**This product uses active electronic circuitry that have a small current consumption. Sepura do not switch of the power supply in the RAC connector when switched off. It is recommended to disconnect the RSM from the Sepura to avoid draining the Sepura battery.
