

# PRO-BT510 EARBUDS

DISCREET AND COMFORTABLE COMMUNICATION

## FEATURES & BENEFITS

Designed for efficient and uninterrupted communication. They are an excellent choice for individuals working in specialized environments, such as security personnel. Thanks to advanced Bluetooth technology and noise reduction features, they provide clear audio and long battery life. They also work with both Android and iOS systems for music playback and phone calls.

## SPECIFICATIONS

- Bluetooth 5.2 Protocol: Lower power consumption, faster connection, and stronger interference protection to ensure seamless communication at all times.
- ANC Noise Reduction: Ensuring crystal-clear sound even in noisy environments, with excellent anti-feedback performance. To cycle between modes press and hold the either button of the earbud for 2 seconds. The mode will be indicated by different signal tones:
  1. ANC noise suppression.
  2. Passive no noise suppression.
  3. Ambient listening.
- Long Battery Life: The ultra-low standby power allows the earphones to remain in standby mode in their charging case for up to 360 days. They can be used for up to 20 hours, making them ideal for prolonged use.
- Compact and Lightweight: Each earphone weighs only 4 grams, making them discreet and perfect for special operations, security personnel, and other professional users.
- Seamless Switching Between Earphones: Easily switch between the left and right earphones, ideal for long work shifts. If one earphone runs out of battery, simply place it in the charging case and continue using the other without interrupting communication.

### Article number:

30351 - ProEquip PRO-BT510 White Earbuds incl. charging cable & Case

30352 - ProEquip PRO-BT510 Black Earbuds incl. charging cable & Case

Type	Specification
Color	Black, White
Protocol	HFP, HSP, A2DP, AVRCP
