

ProEquip PRO-P350

WITH INLINE MIC FOR SEPURA

A ProEquip adaptor cable with inline microphone for Sepura handheld radios and Nexus 2-pin (J22) male connector. The cable is intended to be used when you have the radio in a harness on your chest, it has an inline mic and lacks PTT as the idea is to use the radio's PTT. It can be used to connect ProEquips PRO-BS or C-shell or D-shell earpiece or used with the Peltor SportTac, Tactical XP or other versions with the J22 connector. There is also a range of other earpiece solutions where the user can select their preferred earpiece/headset.

FEATURES & BENEFITS

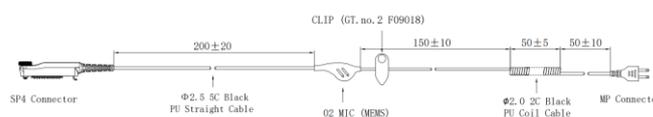

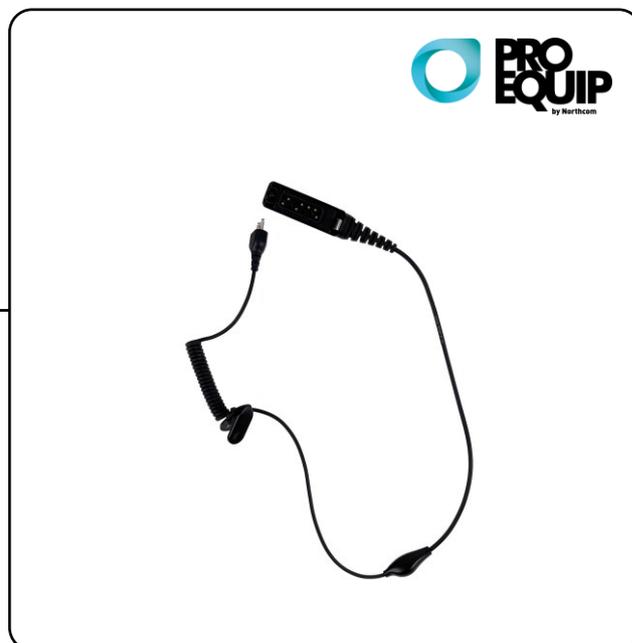

- Robust PTT with a secure clip
- Hi quality microphone (MEMS)
- For use with C- or D-shell earpiece with J22 input
- Can be used with Peltor hearing protection headset with J22 input like SportTac or Tactical XP
- Can also be used with ProEquip PRO-BS5 headset with bone conduction technology.
- Coiled cable for better flexibility.
- Slim size connector with metal hook for secure and reliable use
- Connector with integrated rubber gasket as water protection for the connector pins
