

ProEquip PTT Flexi Stalk

A ProEquip PTT switch on flexi stalk for use with various radio brands. It has a 500mm long connection cable and with ProEquip adapter cables available with 3.5mm standard plug and Sepura plug for AIU/SSC it is easy to connect to any radio. The short connection cable also makes it easy to change the flexi stalk without having to run a new cable to the radio.

FEATURES & BENEFITS

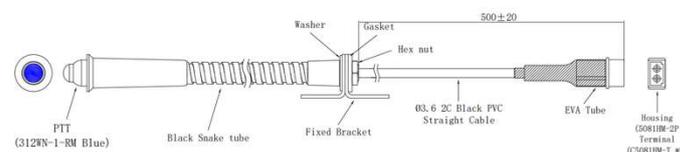

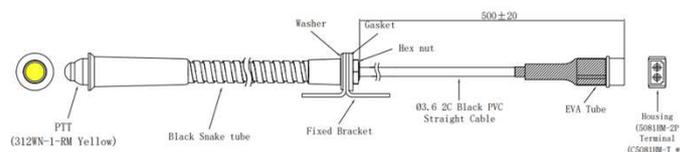

- Cable length: 500mm
- Flexi stalk, length: 252mm
- Easy to change due to the short cable
- Adaptor cables with 3.5mm and Sepura plug available
