

ProEquip cable for PTT Flexi Stalk

ProEquip adaptor cables for PTT Flexi Stalk available in two versions; with 3.5mm plug and with AIU/SSC connector (for Sepura radios). Both versions are 4500 mm long and intended for ProEquip PTT flexi stalks with 500 mm connection cable.

FEATURES & BENEFITS

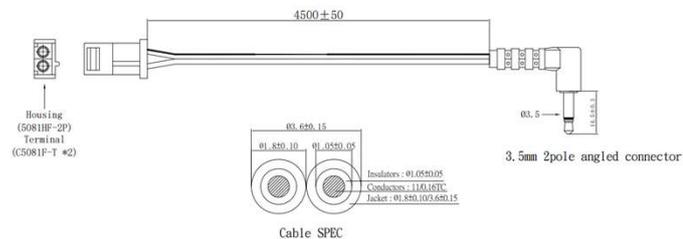

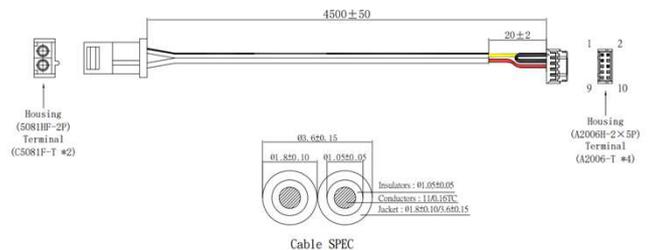

- Cable length: 4 500mm
- Comes in two versions, fits the most radio brands
- Together with the optional PTT Flexi Stalks it makes installation and replacing of the PTT Flexi stalk easy and convenient
- Kit with spare connectors available, including: connector housing m/f, 2 pair of pins and sockets. Everything you need if you need to shorten the cable for any other reason.

OPTIONAL

30260	ProEquip PTT Stalk - yellow button
30261	ProEquip PTT Stalk – blue button
30265	ProEquip Connector kit for adaptor/connection cable
