

ProEquip PRO-AT35L

FABRIC CABLE, ACOUSTIC AIRTUBE, 3.5MM FOR ICOM

The ProEquip earhanger with acoustic airtube, fabric cable and 3.5mm L-connector is compatible with Icom radios with 3.5mm socket and ProEquip Speaker Microphones with 3.5mm socket.

This is a version of an earphone where the sound is generated in a transducer and then transmitted to the ear via an air tube.

FEATURES & BENEFITS

- The earpiece fits comfortably around the ear and is adjustable for left or right side (twist and adjust the L-formed joint)
- Coiled airtube made of hypoallergenic silicone
- Can be used with other accessories such as an RSM, PTT box or connected directly to the radio
- With FabricLine fabric cable that is durable and that doesn't tangle just as easily as its PVC counterpart.
- Comes with three different sizes of eartips, 1-,2- or 3-flange versions, also available as spare parts
- The loudspeaker part has an integrated clip that typically be clipped to the collar
- Angled connector makes the connector to sit firmer in the jack to avoid that it accidentally gets pulled out of the jack
