

ProEquip PRO-P280

2-WIRE, NOISE CANCELING MIC/PTT, ACOUSTIC AIRTUBE

A ProEquip headset with 2-wire solution, one wire for the headset and one wire for the mic/PTT. The headset is with transparent acoustic airtube, model "Secret Service". Cables and PTT/mic are black except for part no. 29187 which has white fabric line cables and tan PTT/mic. Noise-canceling microphone provides clear and crisp audio during transmission.

FEATURES & BENEFITS

- Robust PTT with noise-canceling microphone and a secure clip
- Cable slider that is adjustable to keep the cables together
- Extra long cables that are easy to hide under clothes and in sleeves
- Clear and crisp audio during transmission due to the noise-canceling microphone
- Available with different connectors, for Icom and Sepura handheld radios
- Different eartips available, such as ProEquips EarFly inserter, Open Ear insert and Noise-absorbing foam plugs in different sizes
- Comes with 3 different sizes of rubber eartips; 1-, 2-, and 3-layers
