

ProEquip Case with charger

CASE FOR CHARGING 12 UNITS OF SEPURA BATTERIES

A ProEquip case with holders for 12 Sepura radios with battery and with 12 slots for charging batteries. The case comes with power supply for 100-240 VAC (max 3 A) and also a 12/24VDC cable with cigarette lighter plug. Practical to use when you always have 12 radios ready and 12 batteries on charge, in a command vehicle or in the office.

The case is robust; both shockproof and waterproof.

The case is available in four different models; black cases for Sepura STP, SC20 and SC21, and for SC20 there is also a yellow model.
