

ProEquip PRO-C30

EARHANGER WITH C-SHELL

ProEquip earhanger with a clip behind the ear (C-shell), with coiled cable, available with different connectors, configured for different radio brands and ProEquips range of accessories.

NOTE!

3.5mm connector is compatible with direct connection to Icom radio with LA/LS/LP connector provided that alarm is not used.

In cases where alarm is used, the corresponding article with the suffix -N in the article number is recommended.

FEATURES & BENEFITS

- The earpiece fits comfortably behind the ear and is adjustable
- Depending on the model, it can be connected to various accessories or directly into the radio's accessory socket.
- Fits both left and right ear - reversible
- Available with different connectors
- With coiled cable that doesn't tangle just as easily as its straight counterpart
- With angled connector (L), the connector to sit firmer in the jack to avoid that it accidentally gets pulled out
