

ProEquip Finger PTT

A ProEquip Finger PTT, available in two different cable length. Dust- and waterproof according to IP67 , Use it with the included Velcro tape or have it fixed mounted with ProEquip mounting bracket made of stainless steel.

Works for everything where you need a PTT with a 3½mm connector. Also included in some of our handsfree kits, e.g. for V-com M80, and is also a good alternative to handsfree kits for Icom.
