

ProEquip PRO-PTT 35WP

MEDIUM PTT-BOX, 2.5MM SOCKET AND VOX

A ProEquip Medium PTT-Box with selectable VOX function compatible with Icom IP110 (with Icom Marine radios IC-Mxxx it works only as a PTT), and a 2.5mm socket for connecting a headset with the possibility of securing the connected accessory. The side button can be used to easily switch between VOX active or VOX off.

For best function in VOX mode, a headset with boom microphone is recommended. Note that the VOX function must also be activated/programmed in the radio and for best function the gain on VOX also needs to be adjusted.

FEATURES & BENEFITS

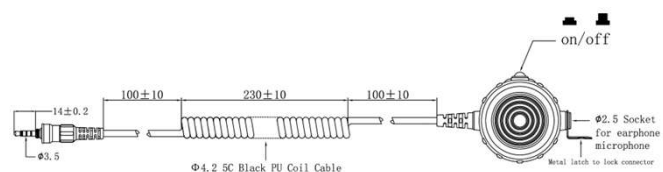

- Robust PTT with a secure clip
- 2.5mm, 3-pole socket for mic/earphone
- Easy to secure the cable coming from mic/earphone
- Possible to switch between VOX on/off
- Coiled cable for better flexibility.
