

ProEquip Cable

FLAME RETARDANT STRAIGHT CABLE SEPURA STP/SC

A ProEquip cable with an open end, which is stripped and has tinned wire tips, all to simplify connection to any accessory.

ProEquip's cable program includes a wide selection of cables in different designs, with different connectors and lengths.

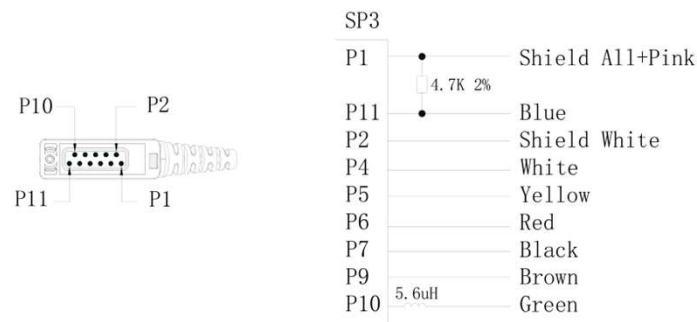

Northcom is always working on developing adaptations for different types of radios and accessories. We make many special solutions to give our customers many choices.

FEATURES & BENEFITS

- Stripped with tinned wire tips
- Manufactured under hi quality controlled conditions
- Advantages of factory-made cables include higher load capacity, less risk of moisture penetration into the contact, and better electrical properties
- The cable is intended for use with headset
- The cable has a resistance (4.7 kΩ) that the radio detects and automatically uses the "headset" profile.

SPECIFICATION

Cable length: 650mm (including peeling)
