

ProEquip FLX2 Cable

CURLED CABLE WITH FLX2 AND HIROSE 12 PIN

A ProEquip adapter cable (FLX2 to Hirose 12 pin connector), designed for connection to 3M™ PELTOR™ CH3 headsets (version -111). Compatible with both Sepura and Icom handheld radios using our Hirose adapters. Available in two versions, for simplex and duplex.

ProEquip Adapter Cables with FLX2 are designed to connect with 3M™ PELTOR™ Headsets with FLX2 jack.

FLX2 cables provide simple and reliable connection to equipment for most areas of use. There are cables for Listen Only, PTT adapter for headset version and direct connection to a communication radio. All so that you can choose a solution that suits you.

FEATURES & BENEFITS

- A radio connected via an FLX2 cable always takes priority—for example, if you are listening to music via Bluetooth.
- By using FLX2 cables, you can use a personal headset for various applications.
- Using an FLX2 cable can also be a practical and convenient solution for changing the way you use your headphones.
- FLX2 cables offer flexibility and ease of connection, facilitating work in noisy environments or with various types of PTT radios.
- Curled cables offer better flexibility and do not tangle as easily as straight cables.
- 73238 use the profile RSM when connected to a Sepura and only can be used in simplex mode
- 73239 use the profile Headset when connected to a Sepura and can be used in duplex
(When using the "Headset" profile, the gain should be set to 36 dB for optimal functionality.)
